

# SNOW FOAM MAX

**Mi**DEX  
midex.uk

## Professional Formula

**A super-strength high-foam formulation, blended to provide exceptional cleaning for vehicle paintwork, plastic, glass, tyres and wheels.**

Midex Snow Foam Max is phosphate free, biodegradable and PH neutral. This highly concentrated, high foaming cleaner is suitable for use on any vehicle: cars, caravans, trucks, curtain-sides, agri, plant, vans and trailers. The high-cling foam has a much longer dwell time than ordinary snow foam and will quickly dissolve oil and grease, lifting it off the surface and providing a rapid and superior cleaning action.

## Directions For Use:

### **Use protective gloves and safety glasses.**

Shake well before use. For best results, keep vehicle out of direct sunlight and hose down with cold water before use.

Dilute 1% to 2% (1 to 2 parts solution to 100 parts water), the higher concentration will provide a thicker layer of foam.

Apply using a snow foam lance, starting

from the bottom and working upwards.

Allow a few minutes to activate, then rinse off with clean high-pressure water.

With a manual pump foam sprayer, a warm water solution works best.

### **IRRITATING TO EYES AND SKIN.**

**In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.**

**KEEP OUT OF REACH OF CHILDREN.**
