Directions For Use:

Use protective gloves and safety glasses.

Shake well before use. For best results, keep vehicle out of direct sunlight and hose off first to remove loose dirt and grime.

Add 80-100 ml to a bucket of clean, warm water, ensuring it is well mixed and frothy.

Apply to the vehicle using a soft sponge or mitt, then rinse off with clean, cold water. Wash the car in sections, ensuring that shampoo is rinsed off before it dries. Dry the vehicle with a chamois or microfibre cloth to prevent streaking.
